Temporary Traffic Management Plan for Work Zone for Lexington St at Lionel Ave

During this phase of construction, there will be a semi-permanent work zone set up within Lexington St just south of Lionel Ave. This work zone will be barricaded off until work in this section is complete.

A lane shift will be put in place to maintain 2 lanes of travel around this work zone.

The expected duration of this work is 6-8 weeks.

There is no work scheduled for the week of Christmas or the week of New Year's but this traffic pattern will remain in place.

Drivers should use caution when traveling through the area and follow the temporary lines painted on the roadway.
